

SPONSORSHIP PACKAGE

2026/2027

ABOUT OUR CAR & TEAM

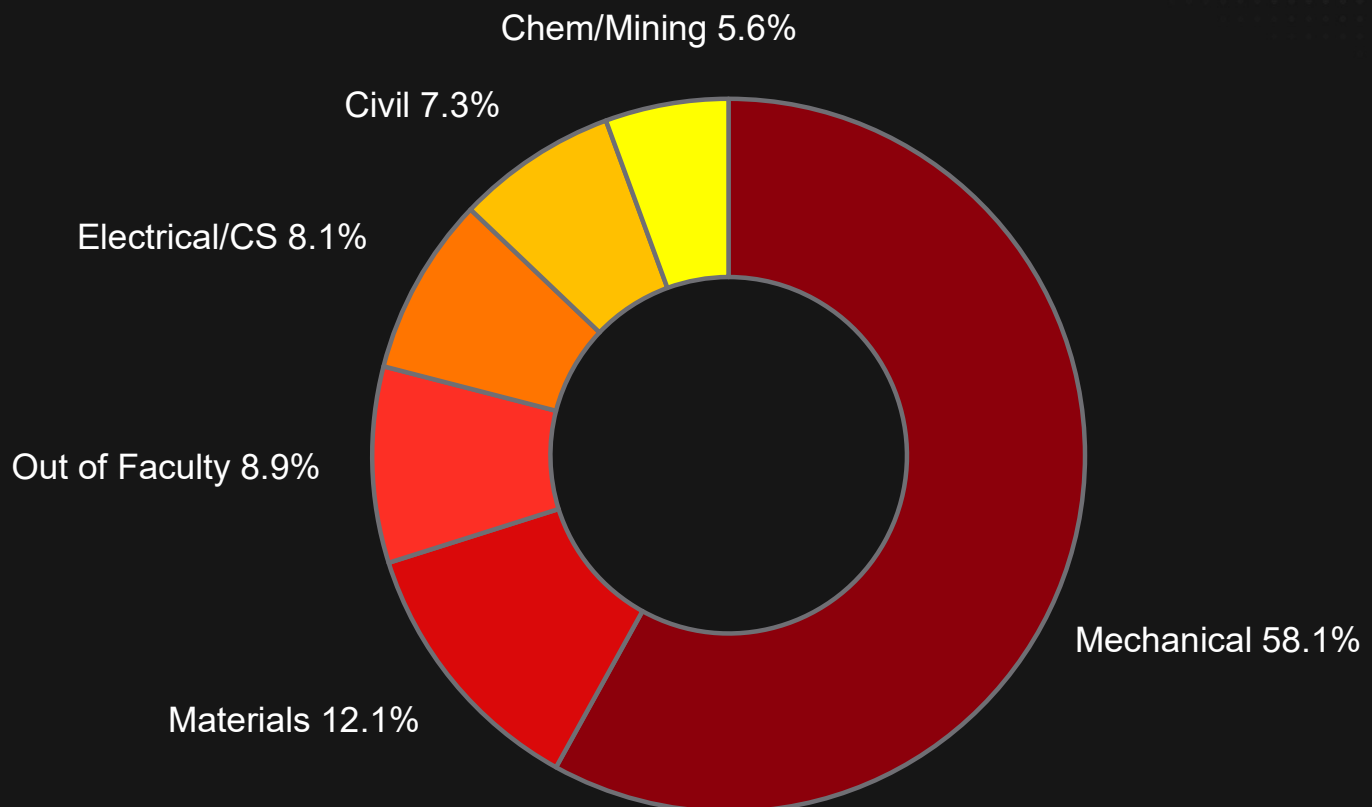

THE VEHICLE

A Baja is a single seat, off-road vehicle built to conquer all terrain — dirt, mud, snow, ice, and rocks. It can drive through shallow water, fly off jumps, mount boulders, and climb steep slopes. All Baja SAE teams receive a standard 10HP Kohler engine. Every other component is independently designed and built by our team.

THE TEAM

We are 160 McGill students from various faculties and academic levels, united by a passion for engineering. The team offers a unique opportunity to apply classroom theory to real design and manufacturing processes, with veterans mentoring newer members in design, analysis, and fabrication.

ENGINEERING MAJOR DISTRIBUTION

WHY BAJA?

McGill is home to around 40,000 students from across the globe, with a world-renowned undergraduate engineering program and a strong history of excellence in student design competitions. By sponsoring us, your company associates itself with a tradition of success.

McGill Baja is much more than a design team. We support each other in everything we do and constantly push the limits of engineering. Together, we have built an encouraging culture where taking risks is celebrated. The team also develops professional and business skills through design presentations and external reviews with alumni.

When you choose to sponsor us, you are choosing to support the very best that the future of engineering has to offer. We have big goals for the coming years and hope you will decide to be part of our journey.

COMPETITIONS & RESULTS

Baja SAE competitions are hosted by SAE International and attended by over 100 universities, hundreds of industry professionals, and thousands of engineering students from Canada, USA, Mexico, Brazil, and India. Events span 3 days: sales and design presentations, dynamic events (acceleration, hill climb, maneuverability), and a 4-hour endurance race where fewer than half the vehicles finish.

UPCOMING COMPETITIONS

Baja SAE Williamsport

May 2027

Épreuve du Nord

February 2027

RECENT RESULTS

BAJA SAE Ohio 2026

Out of 83 Teams

19th — Overall

21st — Endurance

15th — Suspension & Traction

BAJA SAE NEW YORK 2026

Out of 102 Teams

23rd — Design

16th — Suspension & Traction

OKTOBAJAFEST 2025

Out of 15 Teams

 **2nd — Suspension & Traction**

 **2nd — Endurance**

BAJA SAE MICHIGAN 2024

Out of 90 Teams

6th — Business Presentation

19th — Design

17th — Acceleration

35th — Overall

SPONSORSHIP BENEFITS & PACKAGES

Your Logo on Baja

Your logo on our vehicle body wrap, our website and our apparel seen at all competitions, events, and presentations across North America.

Social Media Presence

With our team of 160+ members and an established influence in McGill, Baja can put your name in the minds that matters the most.

CV Bank

Access to the resume of experienced Baja members looking for an internship, a job, or more!

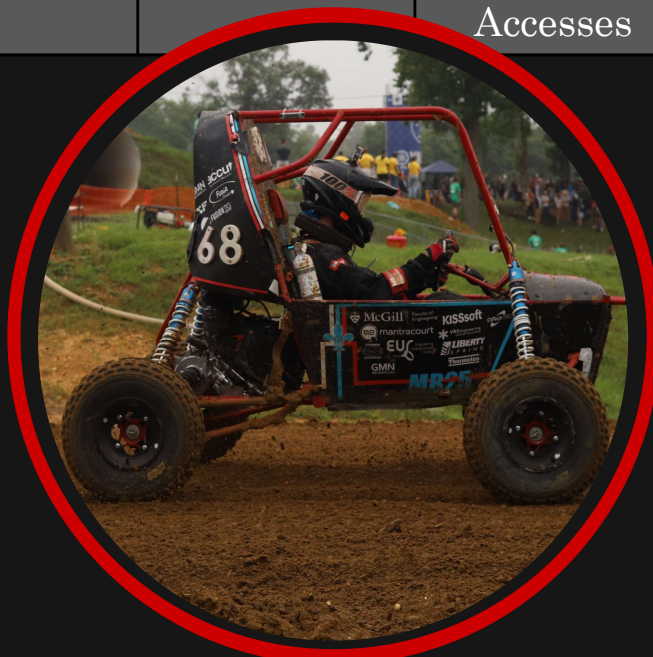

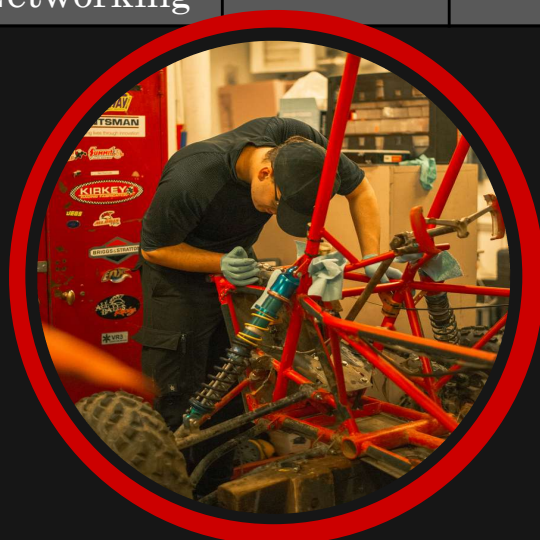

McGill Networking

Tailored to your own networking needs, Baja is your gateway into recruiting a team of McGill Graduates with our deals and contacts.

OUR PACKAGES

Tiers based on value of contributions — cash, parts, or services. All packages customizable.

Perks	Bronze \$500	Silver \$2000	Gold \$4000	Diamond \$7500
Logo on Website	Small	Medium	Large	Large
Logo on Apparel	Small	Medium	Large	Large
Logo on Car	-	Small	Medium	Large
Social Media	-	Group Post	Individual Post	Personal Feature
CV Bank	-	-	All Resumes	All Resumes
McGill Networking	-	-	-	Event Accesses

THANK YOU

FOR YOUR CONSIDERATION

This year, we will attend 1–3 official SAE competitions. Travel expenses alone can exceed \$15,000 annually, and manufacturing costs much more. Even with school support, none of this is possible without the generosity of our sponsors.

By supporting McGill Baja, you make the years of effort in school worthwhile for 160 passionate engineering students and help us continue building a legacy of excellence.
